Bankruptcy Case No. 19-30088 (DM)

UNITED STATES BANKRUPTCY COURT
SAN FRANCISCO, CA

Subject: Response to Reorganized Debtors' Forty Second Omnibus Objection To Claims
(No Liability-Passthrough Claims)

Our claim was initially filed in small claims court in the County of El Dorado based on losses to electrical equipment (garage door opener and numerous LED bulbs) damaged by a power surge occurring during restoration of power subsequent to a "Public Safety Power Shutoff" (PSPS) by PG&E.

At the request of a PG&E representative's request at the scheduled hearing our case was included in the bankruptcy procedures. Our understanding at the time was that this was procedural, so we did not object.

We have not had the opportunity to present factual evidence to prove our claim is valid.

We, therefore, request the Court to sever our claim from the Omnibus Objection referenced above so that we may proceed with our case.
